

## **East Riding of Yorkshire and Kingston upon Hull Joint Minerals Local Plan Main Modifications Statement of Representation Procedure and Document Availability**

East Riding of Yorkshire Council and Hull City Council are inviting representations on the proposed Main Modifications (MMs) to the emerging Joint Minerals Local Plan (the Plan). The majority of the MMs were identified and discussed at the examination in public hearing sessions that took place at County Hall, Beverley on 8 and 9 January 2019. The MMs address the concerns of objectors and address issues raised by the Independent Planning Inspector.

A Schedule of Main Modifications has been prepared by the councils alongside a Sustainability Appraisal and Habitats Regulation Assessment Update Note, which will be published for a 6 week public consultation.

**The consultation will commence on Monday 11 March 2019. Representations must be submitted on or before 12 noon on Tuesday 23 April 2019.**

Following the consultation period, all representations will be considered by the Inspector in the preparation of his final report which will set out any necessary modifications to make the plan 'sound' and legally compliant. The Inspector must also be satisfied that the requirements for public consultation and sustainability appraisal have been met and that the Plan has been prepared in line with the duty to cooperate. The Inspector may request that further hearing sessions are arranged if any issues arise. However, these will only be scheduled exceptionally.

In addition to the MMs, the councils propose to make a number of minor changes to the Plan, known as Additional Modifications (AMs). The AMs will be published alongside the MMs for completeness, but will not be examined by the Inspector. The AMs propose to address minor drafting errors and some factual corrections and do not affect the soundness of the Plan.

For information only, a track changes version of the Plan has also been published to aid understanding of the (Main and Additional) modifications proposed.

It must be noted that this consultation refers to the proposed MMs and no other aspect of the Plan. The MMs are put forward without prejudice to the Inspector's final conclusions.
